

STAKEHOLDERS FORUM ON PESTICIDES AND ITS CONTRIBUTION TO FOOD SECURITY AND SAFETY

GIL L. MAGSINO, Ph.D.
Director, NCPC-CAFS, UPLB

February 12, 2019

Sequoia Ballroom, Acacia Hotel Manila

5400 East Asia Drive Corner Commerce Avenue

Filinvest Corporate City Alabang, Muntinlupa City

Objective:

General:

To promote IPM and IRM as key science-based strategies for sustainable agriculture and environmental protection and management.

Objectives:

Specific:

- To highlight the importance of pesticides in food production, food security, food safety and environment;
- To counter the negative perceptions on pesticides; and
- To generate support of the policy makers and regulators in support of science-based strategies and risk-based regulations.

Participants:

NCPC, CLP, CPAP, PBGEA, BPI, Mango Growers Assoc., FPA, BAFS, UPLB Bee Program, Philippine Congress, Journalist – Agri. and S & T, PAO (Isabela, Benguet, Bulacan, Laguna, Pangasinan), PAE, Dole Phils., IWEP, IPB, New Hope Corp.

Activities:

Lectures from resource person and workshop (food production and security, SPRT, environment issues, negative perception of pesticides and IRM)

Lecture topics:

Contribution of crop protection products on food security, product registration in the Philippines, pesticide toxicology, environmental protection and management, occupational safety, pesticide management as component of IPM, and application technologies (drone, aerial spraying)
